Summary

This document was developed for the Working With Business (WWB) Project. An earlier version of LGBCL (version 0.01) was released for software testing purposes, following which version 0.02 was released for comments on its content. The current version is 1.00.

LGBCL is made available for use, without guarantees and without licensing costs, by local authorities, community organisations and any other bodies referencing businesses.

Key Design Criteria

The following decisions have been made with respect to LGBCL:

- It will be poly-hierarchical (ie each term may appear more than once in the hierarchical structure. A term will have the same meaning wherever it appears).
- One 'preferred term' will be provided for each business category. Non-preferred terms (synonyms, etc) may also be provided.
- Terms may have 'related terms'.
- It will provide a controlled list suitable for categorising businesses in WWB software designed to help Economic Development Officers (EDOs) support businesses.
- The XML version of the List provides scope notes for and version history information for terms.

Notes

- Synonyms for business categories volunteered by local authorities are included.
- The current version is 1.00.
- Mappings to the Local Government Service List (aka the 'PID List') and the UK Standard Industry Classification of Economic Activities 2003 (SIC 2003) are published in XML and Word formats.

Further Reference

LGBCL in various formats with supporting resources is found at:

<http://www.esd.org.uk/standards/lgbcl/>. Resources include mappings between LGBCL and the following other controlled lists:

- UK Standard Industry Classification of Economic Activities 2003 (SIC 2003)
- Local Government Services List (LGSL) (= 'PID List')

Comments

Ongoing revisions to the List will be issued via the esd-toolkit Web site.

Local government officers can raise queries and comments on the List via the forums at <http://www.esd-toolkit.org>.

Comments can also be sent to administration@esd-toolkit.org.
